

BIMU

BIMU

 **Clase medio-alta. Precio medio-alto.**

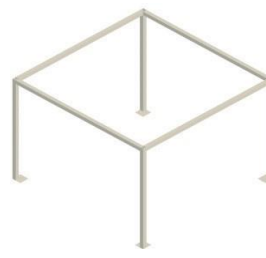

Bimu reinterprets the industrial system of modular shelving to apply them to the world of the office. Recovering the essence and eliminating everything superfluous, Bimu manages to find beauty in the functionality of the product. With the aluminium structure and all the accessories designed to facilitate and accompany the user, whether for collaborative work or for individual concentration, Bimu allows you to transform open spaces into welcoming and productive work environments. Create, build, and adapt your workspace as many times as you need.

Pergola BIMU

Bimu is an aluminum pergola composed of an 80x80mm structure and four compositions 3x3, 2x2, 2x1 and 3x1.

Measurements module 3x3; 3.32x3.32m

Measurements module 2x2; 2.24x2.24m

Measurements module 2x1; 2.24x1.16m

2x3 module measurements: 2.24x3.32m

3x1 module measurements: 3.32x1.16m

The sides can be combined with finishes, textile, round metal slats, board slats, screen, melamine boards, zenit or Luxe.

Bimu, being an open pergola, does not need electrification or air conditioning since it uses the same space. It also has a movable arm lamp that allows the space to be illuminated.

As it is an element entirely in aluminum and choosing finishes such as screen or slats, it can be placed outside. It also has a screen roof to provide sun protection.

Material:

Bilaminate panels

Work surfaces in particle board made of wood particles, available in 19 mm thickness, glued with synthetic resins, medium density 650 kg/m3.

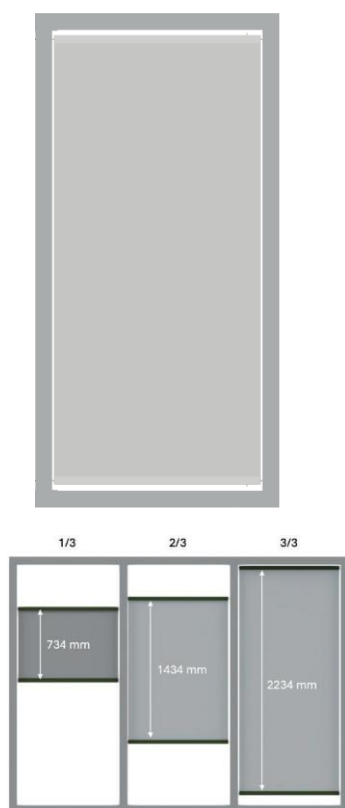

Luxe, Zenit and Sincron panels

18mm thick countertops manufactured in our production plants. With very current chromatics, excellent design and quality.

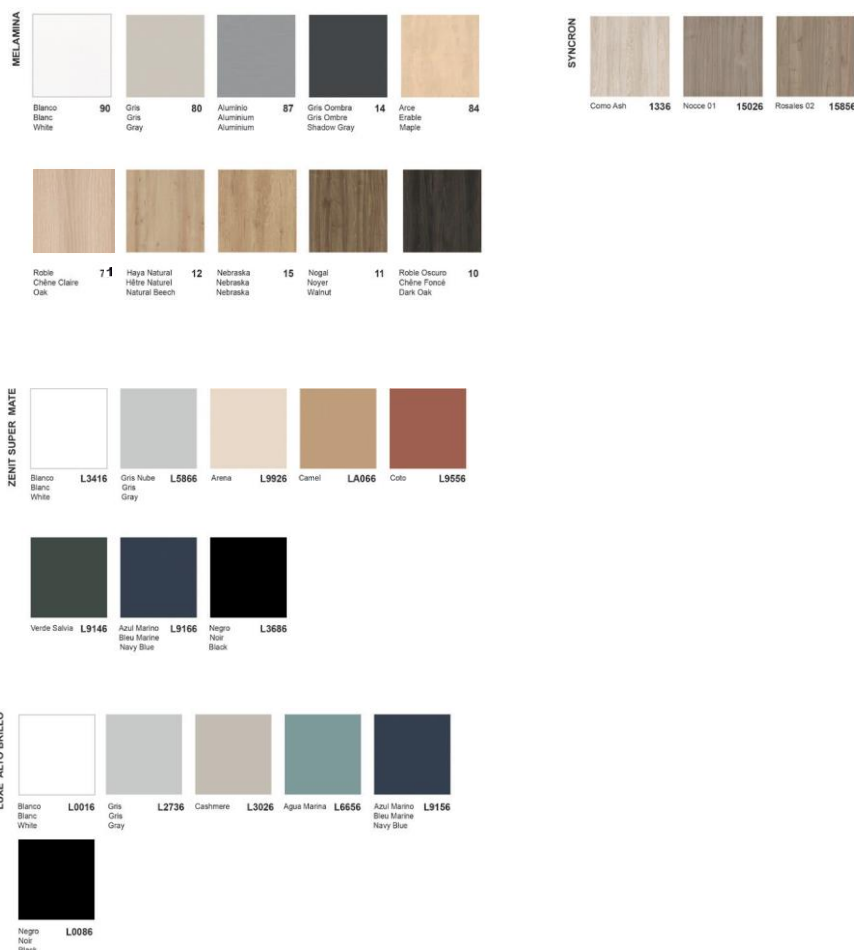

Luxe panels: it is a glossy lacquered surface with a mirror effect, high resistance and anti-fingerprint.

Zenit panels: super-matt lacquered surface with a silky, anti-fingerprint finish.

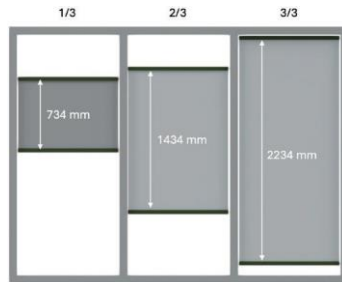

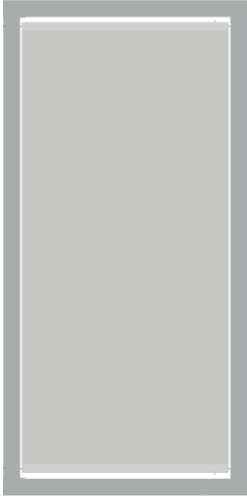

Sincron panels with textured surface and the embossed finish complement each other for a great naturalness and high decorative level.

ACCESSORIES:

Bimu, being an open pergola, does not need electrification or air conditioning since it uses the same space. It also has a movable arm lamp that allows the space to be illuminated in two sizes.

Hanging accessories that move to the required height without the use of tools, as they are fixed by metal pieces anchored in the structure.
